The Grade 7 Peer Support Camps held at Port Arthur in February were an outstanding success. Students enjoyed fantastic weather, participating in a wide range of team building activities. The Peer Support Leaders excelled in facilitating sessions on friendship and resilience and took part alongside the Grade 7's in mountain biking, orienteering, damper cooking and bush art activities. Students explored the Port Arthur Historic Site, experiencing the Ghost Tour, a historical tour and harbour cruise.

The devastation from the Bush Fires in that region affected all of us deeply. Students were extremely grateful to receive an icy pole from the Rose Bay High School Association purchased at the Copping Museum which highlighted the importance of supporting small businesses in the area. Thank you to all Teachers who attended camps and to Teachers who covered classes back at school, without your support and dedication these incredible opportunities for students at our school would not be possible.

Pieta McKay and Stephen Knowles

Grade 7 Supervisors
